# Work Plan Working Group 1: Pro-Poor Land Management

- support the development of low cost, innovative, data acquisition methods
- develop the social tenure domain model
- contribute in the GLTN
- propose a capacity building approach for pro poor land management

# Work Plan Working Group 1: Pro-Poor Land Management

- recognise and support the development of pro poor land management approaches
- communicate, as far as possible, the FIG concepts in development of land policy and land management: land law, land tenure and security of tenure, land markets, land taxation, land use planning, land reform, land redistribution, post conflict land administration
- identify (geometric) aspects related to social, informal land tenures
