

# HEAT INSULATION OF DWELLING HOUSES

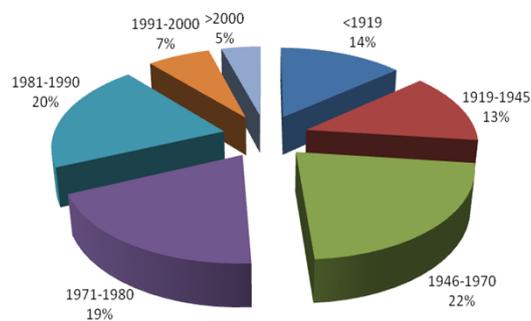

Anita Sīdeļska  
Latvia University of Agriculture,  
Latvia

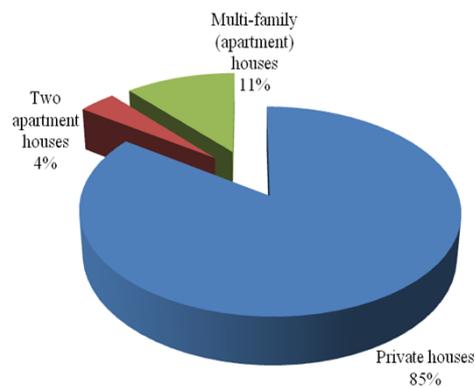

Agreement No 2009/0180/IDP/1.1.2.1.2/09/IPA/VIAA/017

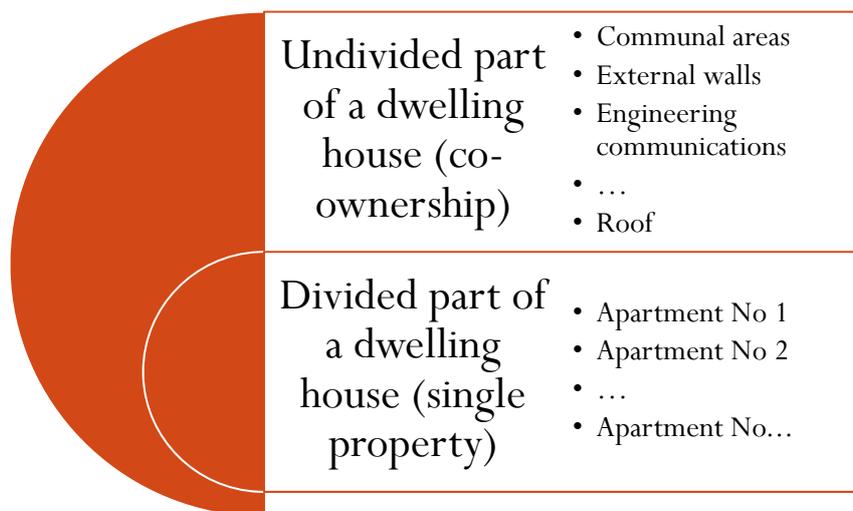

## Breakdown of Latvian dwellings according to the construction year

## Housing fund breakdown by the number of apartments in the house

## Parts of a dwelling house

## CONCLUSIONS

- substantial heat saving and improved energy-efficiency
- long-term management of dwelling houses
- improvement of the quality and sustainability of the housing fund
- development and upkeep of the construction industry

**Thank you for your attention !**
