

SMART SURVEYORS FOR LAND AND WATER MANAGEMENT
CHALLENGES IN A NEW REALITY

eWORKING WEEK 2021
20-25 JUNE

Marije Louwsma, chair commission 8 – spatial planning and development

Commission 8 report 2019-2021

General Assembly, Friday 25th of June

ORGANISED BY

PLATINUM SPONSORS

Commission 8 report

MISSION STATEMENT

In a world of **limited resources**, of which land is the most prominent in the domain of spatial planning, the mission of commission 8 is to **provide access** to planning processes **for all** and balance the various interests in pursue of a **sustainable spatial development** at all governance levels both for the **short- and long-term**.

Commission 8 report

WORKING GROUPS

- 8.1 Rural – urban dependency
- 8.2 GIS tools for spatial planning
- 8.3 Urban Challenges
- 8.4 Land policy instruments for spatial development
- 8.5 African Water Governance

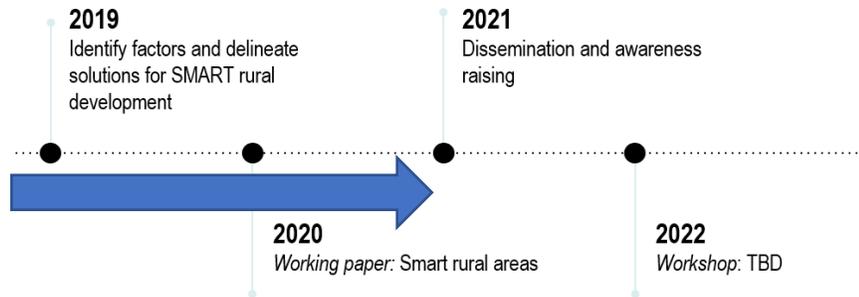

Full report available in technical programme:

Commission 8 report

WG 8.2 GIS TOOLS FOR SPATIAL PLANNING

- Chapter in book 'COVID-19 Pandemic, Geospatial Information, and Community Resilience' ([2021](#))
- Scientific publication: The Role of Spatio-Temporal Information to Govern the COVID-19 Pandemic: A European Perspective. International Journal of Geo-Information 10(3):166 DOI: 10.3390/ijgi10030166
- Joint commission 3 & 8 workshop in Italy, Florence on 20 – 21 July 2021

Save the Date
Workshop Joint FIG Commissions 3 and 8
PRATO, ITALY 20-21 JULY 2021

PARTICIPANTS AND FOCUS

Please, join us and take part in the joint Workshop of FIG Commissions 3 and 8 on the theme: **"Spatial information management to optimize Spatial planning and Sustainable development"**

The workshop will take place as part of the XXII edition of the "International Summer School", organized by Comitato Internazionale di Fotogrammetria Architettonica.

The coronavirus pandemic has put a strain on the world population. The urgent need to improve the habitat to better protect themselves within cities leads governments to focus on policies to protect the environment and the territory. But what are the planning policies to be implemented to overcome this crisis?

The help that digital and geo-information technologies can provide, in terms of ideas for the future, are essential for restarting development that respects our planet.

The Prato conference, in the context of global environmental policies, can be important to encourage and publicize planning works and proposals based on the management of spatial data as a paradigm of the urban regeneration project and opportunities for sustainable city development.

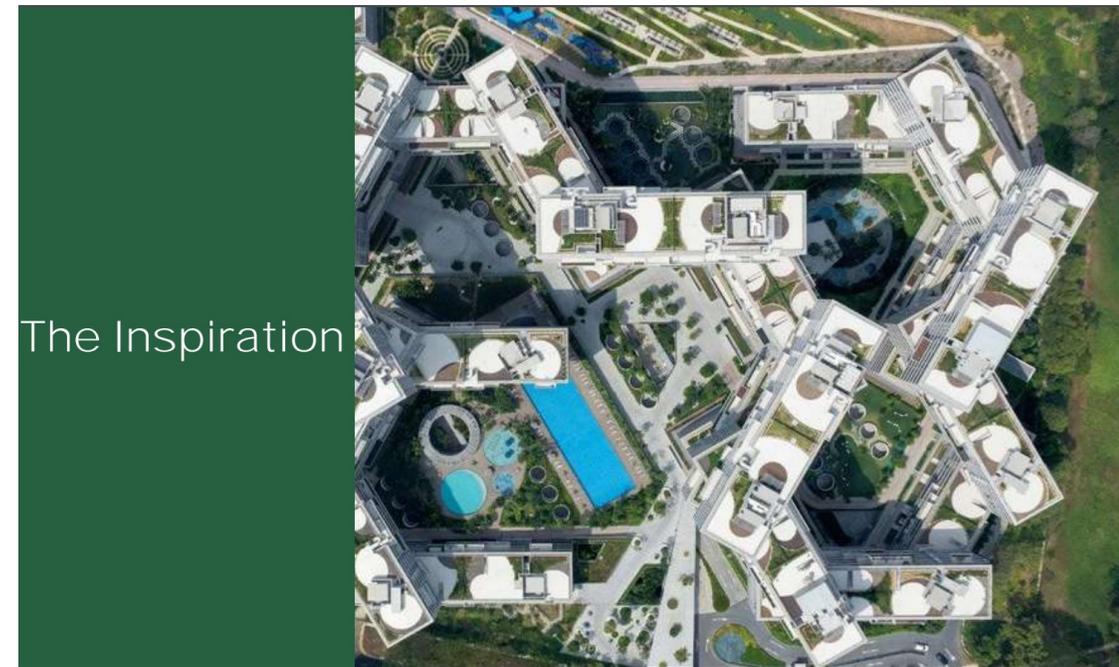

Commission 8 report

WG 8.3 URBAN CHALLENGES

- [Paper](#) from Claire Buxton about 'Experience Versus Expectation - The Effect of Land Development Professionals' Decisions on Sense of Community, Sense of Place, and Flexibility of Tenure'
- Session about Urban Challenges with various contributions

Commission 8 report

WG 8.4 LAND POLICY INSTRUMENTS FOR SPATIAL PLANNING

- LANDNET meeting in Santiago de Compostella (Spain) in autumn 2019
- 2 Webinars, 1 about FAO legal guide on land consolidations, and 1 about land banking
- Session on land banking at this e-WW
- Generic tool for land consolidation (2 papers and 1 workshop this FIG e-WW)
- FIG report about land consolidation expected in autumn 2021

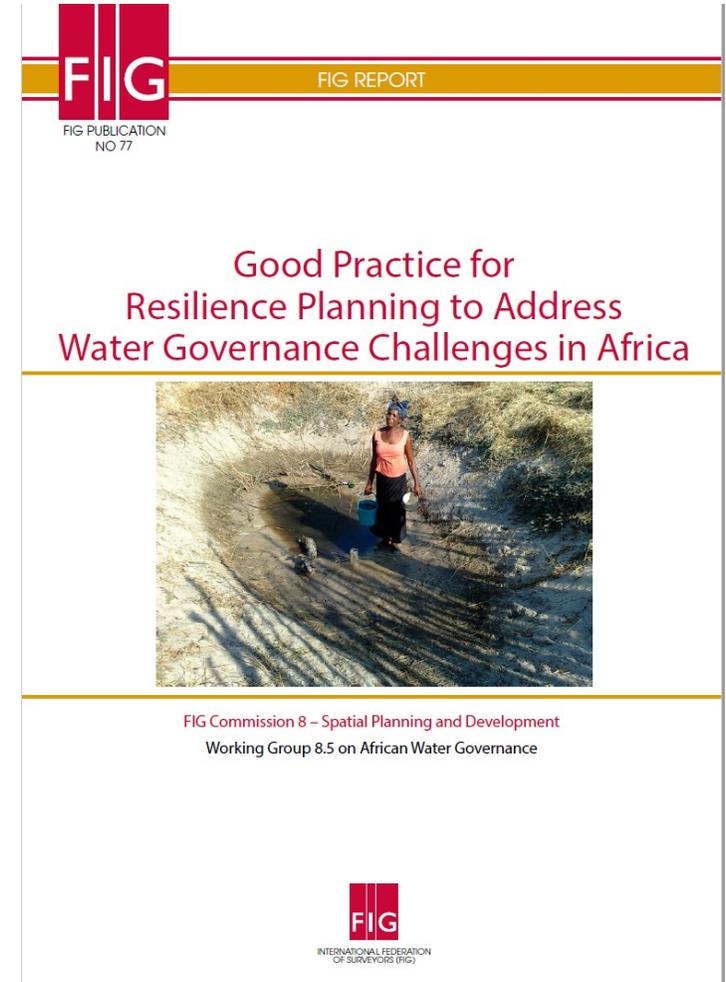

Commission 8 report

WG 8.5 AFRICAN WATER GOVERNANCE

- FIG report 'Good Practice for Resilience Planning to Address Water Governance Challenges in Africa'
- Session about water governance this FIG e-Working Week
- Working Group will end now (2-year)

Anything to discuss

- Upcoming activities on the agenda:
 - Joint workshop in Italy 20-21 July 2021
 - LANDNET meeting autumn 2021 in Ukraine (tentative, hybrid should be possible)
 - Finalization of land consolidation report
 - Launch of FIG report (webinar, combined with workshop?)
- Any other business
